Join us for a free noise and health seminar held at the Woolcock Institute of Medical Research on Friday 21st November 2014 from 9am-4:15pm.

The seminar aims to introduce researchers, practitioners and policy-makers to policy, evidence and methodological issues associated with the study of the health effects of noise

The presenters will speak on regulatory and policy aspects of noise, sources and measurement of noise (traffic, aircraft), noise impact assessment, community perception of noise, health impacts of noise and the design of noise and health studies.

National and international experts include:

- **Professor Lex Brown**, Griffith University, Brisbane
- **Dr Rob Bullen**, Wilkinson Murray Consultants, Sydney
- **Dr Stephen Conaty**, enHealth Working Group on Environmental Noise
- **Dr Anna Hansell**, Imperial College London, UK
- **Mr Peter Marczan**, NSW Environment Protection Authority
- **Dr Irene van Kamp**, National Institute for Public Health and the Environment, Utrecht, the Netherlands
